

New Leadership at The Journal of Bone and Joint Surgery

Needham, MA, USA, 31 October, 2014 -- The Board of Trustees of The Journal of Bone and Joint Surgery, Inc., is pleased to announce new leadership at STRIATUS/JBJS. Mady Tissenbaum, formerly Associate Publisher and General Manager, has stepped into the role of Publisher, while Paul Sandford, formerly the Chief Financial Officer, will serve as CEO.

“We are fortunate to have such strong leaders within the JBJS organization. With the departure of Kent Anderson, who held the post of CEO and Publisher, we did not have to look far to identify who we felt could best ensure continued success for The Journal,” explained Richard Gelberman, MD, Chair of the Board of Trustees. “Together, Mady and Paul bring enormous skill and experience in publishing, strategic planning and finance. Further, they have a strong history of operational leadership and effectiveness in working together with our Board of Trustees.”

“The focus of The Journal remains the same: to provide the most valued orthopaedic information across our portfolio of 4 journals, to offer practical continuing medical education solutions for our audience, and to continue to support the highest standards of unbiased, peer reviewed, scientific literature” commented Tissenbaum.

Sandford added “This is an exciting time for The Journal as we celebrate our 125th anniversary. We have a dedicated and talented team in place to ensure that the organization continues to produce high-quality, actionable content for the next 125 years and beyond, as we continue to reflect and adapt to changes both in orthopaedics and in publishing.”
